## Adding friends with your cell phone.

Easy as 1-2-3.

1. Go to the group and click on **Add Members**.

2. Click in the circles to check the members you want to add.

3. Click on **Done**.

## Adding friends with your computer.

Two ways to do it.

1st way: In the **ADD MEMBERS** box, enter the Facebook name of one of your friends and hit return.

2nd way: Below the **SUGGESTED MEMBERS** list, click on **Add Member** for each friend you wish to add. As you add friends, the names of more of your friends will appear. Warning: Occasionally when you navigate to a group, the **SUGGESTED MEMBERS** list will not be there. Try again later.
