

Pharmacy Outreach—4: Across America in 2024

We must counter Walgreens and CVS with unrelenting outreach/protest.

<https://www.prolifewaco.com/pharmacy-outreach.html>

Make Pharmacy Outreach happen in your hometown at least 4 times—weekly, monthly, whatever. Of course, the hope is you will persevere in the battle much longer.

Pharmacy Outreach—4 will send to you :
100 Chemical Abortion flyers, along with the PDF file.
Four 2' x 2' signs (see at left)
Two 2' x 4' signs (see at right)
Additional sets of six signs: \$90

The four 2'x2' signs will be either Walgreens or CVS, depending on which pharmacy you choose.

Link to the Chemical Abortion flyer:
<https://tinyurl.com/y33w4x6z>

There is no expectation that these will be the only signs and flyers you will use in **Pharmacy Outreach—4**. Use whatever is effective.

If your group will commit to at least 4 outreach events, Pharmacy Outreach—4 will have a “start-up kit” to you right away.

TOP 4 REASONS FOR PHARMACY OUTREACH

- 1. Provide strong headwinds to the state-by-state expansion.** CVS and Walgreens launched their abortion Rx business in NY, PA, MA, CA, IL, and RI. They will face difficulties: resistance from medical professionals, lawsuits resulting from complications, etc. **A strong national Pharmacy Outreach** must be added to their headache list. Slowing and limiting the state-to-state expansion will be a pro-life success.
- 2. A message to other pharmacy chains to STAY OUT and maintain pharmacy choice.** Walmart and large grocery chains have ignored the FDA's offer. We must protest strongly and broadly to keep them on the sidelines. Currently, most customers have Rx choice. Our chemical abortion flyer presents the easy steps for prescription transfers.

- 3. Chemical abortion education.** Pharmacy Outreach provides a huge opportunity to inform, educate, and persuade about chemical abortion. Pro-Life Waco has created a three-fold flier on chemical abortion, the procedure used to commit over half of the abortions in America. We engage pharmacy customers and employees, pedestrians, and travelers.
- 4. Public image and financial loss.** Using signs, literature, and conversations, we seek to bring public image and financial losses to CVS and Walgreens pharmacies. Nothing disrupts a business work day like opposition on sidewalks and close to entrances. This is urgent for pro-lifers in **EVERY** state because of awful national corporate decisions.
