🔊🔊 Join us on May 15th for a special event where we will be discussing all the things traditional sex ed doesn't cover!

We will have some free drinks, condoms, pregnancy tests, lubricants, dental dams, and literature for you to take home!

We will be covering topics such as safe sex, consent, pleasure, and so much more.

Come experience an interactive conversation on these "hard to talk about" subjects

🔊🔊 Unfortunately due to unforeseen circumstances, we're having to completely postpone our "What Sex Ed Didn't Cover" event. I'm absolutely devastated that we are not able to make this work for the day and time that we originally planned. Thank you so much for y'all's shares and support. Stay tuned for more information! Please message me if you're interested in our next event 😊

If you have any questions or concerns please reach out. Especially if you have questions about the content of the event! We have our agenda already built and I'd love to share that with anyone who is concerned.
